* In the comparative period Q1 2015 share based payments have been restated. For further information please refer to the Nine Months Report 2015.

MATERIAL TRANSACTIONS IN Q1 2016

In connection with the acquisitions of the Feedo Group and Bebitus, equity-settled share-based payment awards were granted to members of the local management boards. From an economic perspective, the equity-settled share-based payment awards are part of the purchase price. In Q1 2016, personnel expenses of kEUR 1,916 were recognized within administrative expenses. Thereof, kEUR 594 relate to the Feedo Group, and kEUR 1,322 relate to Bebitus. The corresponding portion within share premium increased from kEUR 2,578 on December 31, 2015 to kEUR 4,446 on March 31, 2016. The non-financial asset relating to the prepayment incurred on the acquisition date was reduced by kEUR 48 in Q1 2016. As of March 31, 2016, the non-current portion amounts to kEUR 240, and the current portion amounts to kEUR 192.

The fair value of short-term employee benefits to local management, incurred in the acquisition of Bebitus, increased by kEUR 39 in Q1 2016 and is recognized as personnel expenses within administrative expenses. The liability thus amounts to kEUR 2,310 as of March 31, 2016 is recognized within other current non-financial liabilities.

As of March 31, 2016, fair values of the contingent considerations from the acquisitions of the Feedo Group and Bebitus amount to kEUR 6,813 (December 31, 2015: kEUR 6,856). The change relating to the Feedo Group of kEUR 50 was recognized within financial expenses, the change relating to Bebitus of kEUR 93 was recognized within financial income. For the acquisition of the Feedo Group, kEUR 2,362 is recognized within other current financial liabilities, and kEUR 1,027 is recognized within other non-current financial liabilities, as of March 31, 2016. For the acquisition of Bebitus, kEUR 2,236 is recognized within other current financial liabilities, and kEUR 1,188 is recognized within other non-current financial liabilities, as of March 31, 2016.

In January 2016, a review process of the issued seller guarantees was started, in the course of which windeln.de AG and two of the sellers of the Feedo Group agreed on a compensation payment in March 2016. As a result, windeln.de AG recognized other operating income in the amount of kEUR 1,050. In May 2016, windeln.de AG agreed with the other sellers of the Feedo Group on a compensation payment of kEUR 2,128 as well as on further changes to the contingent considerations (Earn Out).

In the end of 2015, stock options have been exercised. The registration of the corresponding capital increase for the issuance of new shares in the Commercial Register was completed in Q1 2016. As a result, issued capital increased by kEUR 537; and the share premium increased by kEUR 26 compared to December 31, 2015.

In Q1 2016, management decided to change the third-party warehouse supplier for Bebitus Retail S.L. in Spain. As a result of the warehouse move, expenses in the amount of kEUR 238 have been accrued.

In January 2016, management decided to scale down warehouse capacities in Switzerland so as to realize efficiency advantages from one central warehouse.

In January 2016, the secured borrowing base credit framework agreement with Commerzbank AG for kEUR 5,000 was extended by another year and therefore terminates on March 15, 2017.

In February 2016, the secured credit line agreement with DZ BANK AG Deutsche Zentral-Genossenschaftsbank for kEUR 4,000 was extended by another year and therefore terminates on March 31, 2017.

By means of a Shareholders' Agreement effective January 11, 2016, windeln.de AG founded a new subsidiary Cunina GmbH. The subsidiary was founded in order to launch the Group's private label business. The company is a fully owned subsidiary of

windeln.de AG and is fully consolidated in the windeln.de Group financial statements. The entry in the Commercial Register took place on April 6, 2016.

COMMENTS ON NET ASSETS, FINANCIAL POSITION AND RESULTS OF OPERATIONS

As of March 31, 2016, the assets of the windeln.de Group decreased by kEUR 9,469 to kEUR 149,990 compared to December 31, 2015. The decline is substantially attributable to the decline in cash and cash equivalents as presented in the consolidated statement of cash flows.

In contrast, other current financial assets increased by kEUR 351 to kEUR 3,076. The increase results from a compensation claim in the amount of kEUR 1,050 against two of the sellers of the Feedo Group and is recognized in profit or loss in the first quarter 2016. This is contrasted by a decline in accrued advertising subsidies in the amount of kEUR 776.

In April 2016, windeln.de AG changed its ERP system. As of March 31, 2016, expenses for the ERP system of kEUR 1,075 were capitalized within intangible assets.

The liabilities of the windeln.de Group decreased by kEUR 2,569 to kEUR 42,012. This is substantially attributable to a decline in trade payables by kEUR 3,681. Because of the introduction of a new ERP system, the Group made early payments in March 2016 for payables due in April.

In addition, non-current financial liabilities in connection with contingent considerations in the amount of kEUR 1,163 have been reallocated to current financial liabilities in the first quarter 2016.

In the first quarter of 2016, the Group generated revenues of kEUR 52,132, representing an increase of 46% compared to the first quarter 2015 (kEUR 35,649).

Revenues increased in every region and in all three segments. In particular, the segment International Shops shows a strong growth due to the acquisitions carried out in 2015. As a result, the three shops of the Feedo Group (kEUR 4,369) and Bebitus (kEUR 5,109) took an important part in the revenue growth of the Group.

Compared to the first quarter of 2015, the margin (gross profit as percentage of sales) improved by 3 %. The positive development of the margin is in particular attributable to the increased sales of products with higher margin, improved purchasing conditions with suppliers as well as the introduction of direct delivery to China in the third quarter of 2015.

Compared to the first quarter 2015, selling and distribution expenses increased absolutely and also in comparison to gross profit. This can particularly be explained by the introduction of direct delivery to China. In addition, selling and distribution expenses as percentage of gross margin of subsidiaries acquired in the second half of 2015 are slightly higher compared to those of the German shops.

Compared to the first quarter 2015, administrative expenses decreased on an absolute basis as well relatively compared to gross profit. This can mainly be explained with disproportionately higher expenses for share based compensation in the first quarter of 2015 in connection with the modification of the share based payment program.

The increase of other operating income is attributable to a compensation claim in the amount of kEUR 1,050 against two sellers of the Feedo Group recognized in the first quarter of 2016.

The increase of other operating income is attributable to a compensation claim in the amount of kEUR 1,050 against two sellers of the Feedo Group recognized in the first quarter of 2016.

ADJUSTED OUTLOOK

windeln.de Group expects not to reach the revenues and earnings forecasts for the financial year 2016. After record revenues in March, revenues with customers in China are below expectations in the beginning of the second quarter. Based on an updated forecast, the Management Board decided to adjust its outlook for the financial year 2016 on May 18, 2016.

windeln.de Group now expects an increase in revenues of approximately 30 % year over year and an adjusted EBIT margin between -10 % to -12 % in 2016. The gross margin is still expected to be at least 28 %.

On April 8, 2016, the Chinese government changed import and customs regulations for the delivery of goods to China. windeln.de's shipments to China are not affected except for a moderate increase in customs. The new regulations particularly aim at reducing uncontrolled shipments of goods to China by unauthorized traders by starting to tax them. As a result, the Management Board sees additional upside potential for its Chinese business in the medium-term. Among other initiatives windeln.de plans to exploit this by opening a "Tmall" shop in the second half of the year. Currently however, uncertainty and reluctance to purchase exist among Chinese customers as details of the revised regulation and its practical impact have not yet been clarified.

In addition to the initiatives for the Chinese business, the Management Board has initiated further measures to support the Group's growth and to further improve profitability:

- The change of the ERP system is the basis to improving operational performance and allows scalability. At this point, the implementation has largely been completed. As expected, the conversion temporarily has affected results in April and May.
- The integration of foreign subsidiaries is progressing as planned – especially in IT, marketing and purchasing. This will lead to significant synergies within the next 12 to 24 months at continued strong growth.
